

I am going to Noah's Ark Waterpark!

I am going to Noah's Ark Waterpark. It is in the Wisconsin Dells and it has different water rides, wave pools, and adventure pools that I can play in.

Before we go to the waterpark, I will want to make sure I have everything I need. I will want a swimsuit, towel, water shoes or sandals, sunscreen, and maybe some goggles or sunglasses. I also might want to bring noise cancelling headphones. The rushing water can be loud!

When we get to the parking lot, we will have to buy our tickets for the waterpark. We may have to wait in line for a little bit, but that's okay!

Once I get my ticket, I will walk around the path that leads to the Beach Entrance. I might hear many sounds like water splashing, people laughing, people talking, or music playing.

When I get to the building that says “Beach Entrance”, I will walk through a little store until I get to the Wave Pool. I am now in the waterpark.

There are many maps around the waterpark that can help me find rides, bathrooms, and places to eat.

I will also see many lifeguards in red suits working at the waterpark. If I need help with anything, I can talk to them.

There are so many things to do at Noah's Ark! There are water rides, wave pools, lazy rivers, and adventure pools! Some I might try, and some I might skip. That's okay!

If I need to take a break, I can head to the Calming Room.
This is on the map if I need help finding it.

There are many places to get food and drinks in the waterpark. I can also go back to my car and eat my own food if I want to. It is important to stay hydrated when we are playing in the sun.

When I am ready to leave the waterpark, I will go back to the wave pool and walk through the store one more time and take the path back to the parking lot.
